# INTRODUCTION

**BHOOMI SHAKTI SACHI FOUNDATION** is a multi-objective Trust state government registered organization & and a team of like-minded, highly educated & motivated professionals & and humanists from various fields of development who are committed to working for the welfare & and development of society through an empathetic approach & to intense ground-level activities across various field of public importance like health, education, environment, women empowerment, & many more. We are multi multi-objective organization & so we work in each sector of public importance with collaboration with other organizations & and individuals and whatever available resources so that we can help many lives & and bring positive sustainable change on a larger scale. An ideal way to construct a prosperous nation is by educating the kids. This idea

Thinking of society is also changing slowly. More and more no. of women are getting a quality education. But the true meaning of women's empowerment will be achieved when gender inequality is eliminated. We need to give equal opportunities to women for equal pay, and equal respect as equal to men.

# PRIMARY GOALS

**BHOOMI SHAKTI SACHI FOUNDATION** has a clear directive of reaching out to the underprivileged rural and urban youth and inculcate in them a spirit of reaching heights with whatever resources they have. Our aim is to help rural youth have that escape velocity that causes them to escape the gravitational pull that holds them back and the propensity to believe that achieving heights is not our cup of tea but of the rich and the belief that all the comforts are meant for the elite, we are here to break this myth. The ideology that drives **BHOOMI SHAKTI SACHI FOUNDATION** is based on the non-negotiable principle that every person should have access to quality formal education as a matter of right. Apart from academics, we emphasize greatly on the significance of vocational training and life skills, thus working towards providing employable industry training skills to the unemployed youth of the society. Its focus groups include youth belonging to rural and urban Below Poverty Line (BPL) youth and women. The focus on mainstreaming i.e. education with employability is the root of our philosophy. The expertise of the Global Welfare Society lies in working with the marginalized community. Considerably that is also, one of the major sectors, where maximum intervention is needed. They are also the communities, which have time and again been excluded from the purview and scope of national programs that have otherwise claimed major impact.

# NOTICE

**BHOOMI SHAKTI SACHI FOUNDATION** has been working for the underprivileged women of GUJRAT , especially the needy children and women, for the past one and a half years. As a women's development organization, we welcome all well-wishers and volunteers in our desire to enlighten the unfortunate and destitute by getting cooperation from different corners of the world.

We are a foundation that is devoted to achieving our mission of "Self-Reliant India". Our team has a common vision of reaching the unreached and untouched practically. From the beginning, we are trying to provide housemakers and unemployed youths a platform where they can support their family.

All our activities and plans have run smoothly because of the help and support of our kindest donors, volunteers, and active members. We are very much grateful to them and hope they will be with us on this journey. hope society

# ABOUT US

- At **BHOOMI SHAKTI SACHI FOUNDATION**,

WE serve as a guiding light, steadfast in our mission to ignite profound change within our community and the natural world. Our resolute dedication centers on fostering all-encompassing growth in individuals, forging aall-encompassing trail toward a more brilliant, sustainable future FOR EVERYONE

**BHOOMI SHAKTI SACHI FOUNDATION** actively supports and undertakes initiatives to save the environment and eliminate social issues by organizing awareness programs and camps.

# EDUCATION

Education initiatives within non-governmental organizations (foundation ) can take various forms and play a crucial role in addressing educational challenges, particularly in underserved or marginalized communities. Society often works alongside governments, communities, and other stakeholders to improve access to quality education. Here are some common aspects of education in TRUST

# EDUCATION IN RURAL AREA

Certainly, addressing education in rural areas through non-governmental organizations (foundation ) involves a unique set of considerations. Here's a suggested structure for a presentation on this topic

**Employment and income opportunities**: increasing the quality of education in rural areas can significantly impact the development of employment opportunities. Studies have shown that the availability of skilled labour, transportation infrastructure, and local markets are prime factors in selecting a community for an industrial placement.

· **Increase in productivity of rural labour force**: education can improve labour productivity in rural areas, increasing the wealth of a region or area.

· **Education develops leadership**: with education, individuals gain confidence, knowledge, skills, and experience — all factors that increases an individual's ability to effectively and efficiently lead a group of people towards success. Education helps to identify and develop those leaders in our communities who will battle against low-quality education, and poverty, leading to a successful and strong community.

# OUR PROGRAM

education plays a critical role in rural development, as it is a key factor in developing the people of the rural area, the community, and the land itself. With education, there is always a bright future in store for rural communities. As a student and educator, I believe that the past shows us that education is an important factor in bringing about rural development in any country.

# STATIONARY PROVIDED IN RURAL AREA

Expenses of a student on books, stationery and uniforms in rural India on average are over 10 percentage points higher than those in urban areas, although participation in education system has seen improvement at all levels, according to the Economic Survey.

As per the Economic Survey 2019-20 tabled in the Parliament by Finance Minister Nirmala Sitharaman, the absence of a suitable financial support system and high burden of course fees, especially in higher education, pushes the poor and underprivileged out of the education system.

# AWARENESS PROGRAM IN RURAL AREA

Creating an awareness program in a rural area for education involves understanding the specific needs and challenges of that community. Here's a step-by-step guide to help you develop an effective awareness program

# COMPUTER INSTITUTE

*It seems like there might be a slight misunderstanding or typo in your question. It looks like you're asking about a "computer institute" in the context of a (foundation). However, it's possible that you meant "computer aptitude" or something similar.*

*If you are asking about computer aptitude or proficiency in the context of foundation it likely refers to the level of skill and understanding individuals within the organization have regarding computer usage and technology. In modern foundation , computer skills are often essential for various tasks such as data management, communication, project planning, and more. Staff and volunteers may need to be proficient in using office software, email systems, databases, and other tools relevant to their work. If you meant something else by "computer institute," please provide more details or clarify, and I'll do my best to assist you.*

**OUR PROGRAM**

# HEALTH

Health camps are organized to spread awareness about health and to provide medical care to people who don't have access to it. These camps offer free medical advice, medicine, and referrals for specialized treatment or surgery. They also ensure that people receive healthcare at the right time.

# HEALTH PROGRAM

Designing a health program within a (TRUST) involves careful planning, implementation, and evaluation to address specific health needs within a target population. Here is a step-by-step guide to help you create an effective health program within a TRUST.

**MENTAL  
HEALTH  
PROGRAM**

# OUR PROGRAM

सिलाई मशीन सिखाने के लिए

## **1. Health Education:**

- 1. Conducting workshops and awareness campaigns to educate the community about basic healthcare practices, nutrition, sanitation, and disease prevention.*
- 2. Empowering locals with information on common health issues and promoting a proactive approach to healthcare.*

## **2. Mobile Clinics:**

- 1. Introducing mobile healthcare units to reach remote villages where access to medical facilities is limited.*
- 2. Providing basic healthcare services, vaccinations, and health screenings to detect and address health issues at an early stage.*

## **3. Community Health Workers:**

- 1. Training and deploying local individuals as community health workers to bridge the gap between healthcare providers and the community.*
- 2. These workers can assist with health education, distribute essential medicines, and encourage regular health check-ups.*

## **4. Telemedicine:**

- 1. Utilizing technology to connect rural communities with healthcare professionals through telemedicine services.*
- 2. Offering remote consultations, especially for minor ailments, and providing valuable health advice via phone or online platforms.*

a comprehensive health program for rural areas should focus on education, accessibility, prevention, and community engagement to ensure sustained improvement in the health and well-being of the population

### **1. Primary Care Access:**

1. Establishing clinics or mobile units to provide essential medical services.

### **2. Preventive Health Education:**

1. Conducting awareness campaigns on hygiene, nutrition, and disease prevention.

### **3. Maternal and Child Health Services:**

1. Offering maternal care, immunizations, and child healthcare services.

### **4. Community Health Workers:**

1. Training and deploying local health workers for community outreach and education.

### **5. Nutritional Support:**

1. Addressing malnutrition through counseling and supplementary feeding.

### **6. Sanitation Improvement:**

1. Initiatives to enhance sanitation practices and access to clean water.

### **7. Telehealth Services:**

1. Introducing telemedicine for remote consultations and medical advice.

### **8. Collaboration with Local Authorities:**

1. Partnering with local health departments for coordinated efforts.

**Our program**

# FREE OF COST CAMPING IN RURAL AREA

Camping in rural areas can be a great way to connect with nature and enjoy the outdoors. While many campgrounds charge fees for amenities and maintenance, there are some options for free camping in rural areas. Here are a few suggestions:

Medical camps are conducted by health professionals to carry out limited health interventions amongst the underprivileged community. People attend these camps to get free check-ups and treatment. Getting the appropriate kind of health checkup is vital for every human being and while considering it, some important factors like age, lifestyle, family background, and risks are taken into account.

Health examinations and tests at the early stages of the illness can help to cure it faster and save a life before it can cause any damage. One can live longer and healthier only when the individual gets the right kind of health check-up, screening, and treatment. Even the most basic checkups can identify underlying illnesses.

# FULL BODY CHECKUP

A regular full-body examination enhances both long-term health and life expectancy by allowing for early identification and treatment. Since now you are aware of how important it is to take regular health checkups then you must get one scheduled as soon as possible and get yourself health-wise secure.

### **1. Availability of Healthcare Facilities:**

1. Rural areas may have limited healthcare facilities compared to urban areas. Identify the nearest healthcare centers, clinics, or hospitals where you can undergo a full-body check-up.

### **2. Mobile Clinics or Outreach Programs:**

1. Some rural areas might have mobile clinics or healthcare outreach programs that periodically visit communities. Check with local health authorities or organizations to see if there are any upcoming programs in your area.

### **3. Local Health Events:**

1. Keep an eye out for local health events or health camps that might offer medical check-ups. These events are often organized by government agencies, so, or healthcare providers.

### **4. Telemedicine Services:**

1. In some cases, rural areas might have access to telemedicine services. These services allow individuals to consult with healthcare professionals remotely.

### **5. Community Health Workers:**

1. Community health workers or village health volunteers may play a crucial role in rural healthcare. They can guide you to the right resources or provide information about upcoming health initiatives.

### **6. Planning Ahead:**

1. Since you mentioned a "long" duration, it's important to plan ahead. Check with local healthcare providers about the frequency of health services in the area and schedule your visit accordingly.

# WOMEN EMPOWERMENT

Women empowerment in rural areas is a crucial aspect of sustainable development, as it not only promotes gender equality but also contributes to the overall well-being and progress of communities. Rural women often face unique challenges, including limited access to education, healthcare, economic opportunities, and decision-making processes. Here are some key areas to focus on for promoting women's empowerment in rural areas

**1.Education:** Enhancing access to education for girls and women in rural areas is fundamental. This includes both formal and informal education, as well as vocational training. Educated women are more likely to make informed decisions about their lives, health, and family.

**2.Healthcare:** Improving healthcare access and awareness is crucial for the well-being of rural women. This involves not only addressing reproductive health issues but also providing general healthcare services. Health education programs can help women make informed choices regarding family planning, nutrition, and disease prevention.

**3.Economic Empowerment:** Facilitating economic opportunities for rural women is vital. This can be achieved through skill development programs, entrepreneurship training, and access to credit and financial resources. Encouraging the establishment of women's cooperatives and self-help groups can also enhance economic independence.

**4.Land and Property Rights:** Ensuring that women have secure land and property rights is essential for their empowerment. Many rural women work in agriculture, so having access to and control over land is crucial for economic stability and food security.

**5.Technology and Connectivity:** Bridging the digital divide in rural areas can empower

OUR PROGRAM

# CUTTING AND TAILORING

Cutting and tailoring in rural areas often involves a combination of traditional skills and contemporary practices. In many rural communities, people rely on locally available resources and simple tools to create clothing for personal use and for sale within the community. Here are some aspects to consider when discussing cutting and tailoring in rural areas:

## Traditional

- **Hand-Craftsmanship:** In rural areas, manual techniques such as hand-cutting and hand-sewing are common. Skilled artisans may use basic tools like scissors, needles, and thimbles to create garments.
- **Local Textiles:** Rural tailors often work with locally produced fabrics. They might have expertise in handling specific types of materials that are prevalent in the region.

# AWARNESS PROGRAM TO SELF INDEPENDENT WOMEN

Creating an awareness program for empowering self-independent women in rural areas involves addressing various aspects of education, skill development, and social empowerment. Here's a comprehensive outline to guide you in designing such a program:

कला

जी ज्ञानाप्रियुक्त

आपका प्यारी तस्वीरें बनाकर आपको प्रेम में

मि मिटकी प्राई हाउ हाउ क्रामक  
ह फुडीम फुडी के नानासा इडरिनी

ब्यूटीशियन सिखने के लिए

## **1. Education and Literacy:**

1. Conduct workshops on basic literacy and numeracy.
2. Provide information on government schemes and resources available for education.
3. Collaborate with local schools or community centers to offer adult education programs.

## **2. Skill Development:**

1. Identify the specific skills in demand in the local job market.
2. Organize training sessions for vocational skills such as tailoring, handicrafts, farming techniques, and basic entrepreneurship.
3. Encourage participation in online courses for digital literacy and modern skills.

## **1. Financial Literacy:**

1. Conduct sessions on budgeting, savings, and investment.
2. Introduce basic financial tools like savings accounts and microfinance.
3. Collaborate with local banks for workshops on banking procedures.

## **4. Health and Hygiene:**

1. Organize health camps for regular check-ups.
2. Conduct workshops on nutrition, maternal health, and family planning.
3. Distribute hygiene kits and provide information on personal hygiene practices.

## **5. Legal Awareness:**

1. Educate women about their legal rights and protections.
2. Collaborate with legal aid organizations for workshops on domestic violence, property rights, and legal documentation.
